SEMICLASSICAL PHYSICS

by

Matthias Brack and Rajat K. Bhaduri

revised and slightly extended paperback edition

(Westview Press, Boulder, U.S.A., 2003)

(ISBN 0-8133-4084-5)

Dear readers of our book,

you are welcome to the new paperback edition of our book. We have taken the opportunity to correct all errors and misprints known to us until the end of 2002.

Below is the list of errata for the paperback edition. We very much hope that it does not grow as fast as the old one did!

We are very grateful to J. E. Sträng for communicating a misprint.

Regensburg, May 24, 2004

ERRATA to the paperback edition (January 2003):

p. 53: correct page number in reference:
[4] R. P. Feynman, Rev. Mod. Phys. **20**, 367 (1948).

p. 72: beginning of line at bottom: $\lambda = h/p$

p. 73: first line after eq. (2.83): $|\partial\lambda/\partial x| \ll 2\pi$.

p. 308: line 2 after eq. (6.111): replace $\delta S_2(\theta)$ by $\delta S_4(\theta, \phi)$

p. 326: in legend along y axis of Fig. 7.6: replace $\xi(E)$ by $\zeta(E)$
